PAY4 SCHOOL
STUFF 

Pay4SchoolStuff was founded by two successful professionals who put six children through public school and college and paid for hundreds of field trips, PTA memberships, concerts, exams, fundraising donations, sports, activities and more.

Our team are educators, trainers and experts in the payment processing industry. We have decades of experience in school systems, payments, and custom software applications.

Recognizing that parents of today's children are busy, involved and technically savvy, our founders thought that Pay4SchoolStuff seemed like a natural progression. They also recognized that schools and parent organizations should be focused on learning, instruction and support of children's programs - rather than spending time on administrative tasks.

 **Your Security is our Highest Priority**

Pay4SchoolStuff is a secure website and is SSL encrypted, and PCI-DSS certified. Personal information is never shared with third parties. Payments are secured by our proprietary gateway and all logins are secure.

“By having everything electronic, the PTA’s job is so much easier and more efficient - now we can focus on other things.” - PTA President

GAIN MORE CONTROL

Just think. Instead of collecting individual checks and cash at meetings or via students’ backpacks, and recording payments the old fashioned way, parents have 24/7 access to a single professional payment source using Pay4SchoolStuff.

In addition to making it easier and quicker for parents to pay, Pay4SchoolStuff lets them see all requests for payments at a glance. You won’t have to rely on students to be the messenger - it can all be done online. Schools and affiliated organizations can link documents for parents to download and create forms to collect information. Date, price and inventory controls let you determine how and when items are available for payment.

And, by professionalizing the payment process, Pay4SchoolStuff also lets you keep better tabs on payments - see who has paid, who hasn’t, what’s been ordered... and so much more.

It’s Cost Efficient Too!

There is an affordable one-time startup fee with no long term commitment when you set up your account with Pay4SchoolStuff.

As with all online transactions, a modest processing fee is assessed, a portion of which may be shared with the school or affiliated organization.
